Boulder Clearance Operations – Additional Vessel Mobilisation

Notice Number: 107

Issue Date: 19/06/2020

Neart na Gaoithe Offshore Wind Ltd. (NnGOWL) are currently undertaking boulder clearance within the Export Cable Route, as per Notice to Mariners Issue 77 distributed on 7th April 2020. Mariners are advised that an additional vessel, *World Peridot* (call sign D5TS3), is required to undertake boulder clearance operations in the Wind Farm area and the Export Cable Corridor, south to KP10. The *World Peridot* is due to arrive on site on Monday 29th June 2020, at the earliest.

World Peridot will be undertaking boulder relocation using a Subsea Multi-Tool Remotely Operated Vehicle (ROV) fitted with a tine and/or clamshell grab. Relocation of boulders in areas of export cable infrastructure is a critical pre-construction activity to reduce significant Health and Safety risks to the construction phase. Boulders will be moved a short distance from their existing position only.

Vessels are requested to remain at least 500 metres away from the World Peridot and static fishing gear is requested to be removed from the Export Cable Corridor and Wind Farm Area.

Vessels

The boulder clearance operations are currently being undertaken from *FS Kristiansand* however, to expediate the pre-construction seabed preparation works, an additional dynamically positioned vessel, *World Peridot*, will be mobilised with a Subsea Multi-Tool ROV to undertake these works. A guard vessel, either the *Seagull*, *Tranquillity S* or the *Artemis*, will also be on site. Further vessel details are provided on Pages 3 – 4. Vessels involved will be working 24/7.

For information, *FS Kristiansand* is currently completing boulder clearance operations between KP 2 and KP 10. Both vessels will be working to complete boulder clearance in planned infrastructure areas until approximately January 2021, dependent on weather.

Area of Operations

The works are contained within the Offshore Wind Farm Area and Export Cable Corridor. The section of Export Cable Corridor between KP10 and the Wind Farm Area boundary is defined by the coordinates in the table below.
