

Date of issue:	11/09/2020
Period covered:	02/09/20 – 16/09/20
Notice number:	006
Author:	Liam Rogers

Construction of the Neart na Gaoithe Offshore Wind Farm has commenced. This notice is updated weekly giving information on the progress and resources involved in the offshore works. The intention is to give an overview of activities and vessels involved. Questions regarding the operations are welcomed, preferably well in advance of each construction activity.

Current works include;

1. Casing and pile installation within the wind farm area;
2. Guard vessel duties;
3. Borehole campaign in the wind farm area; and,
4. Boulder/debris clearance in the wind farm area and export cable corridor.

Figure 1 Neart na Gaoithe (NnG) Offshore Wind Farm area and Export Cable Corridor

1 Marine Coordination Contact Details

The following contact can provide more information if required. Please note that specific queries can also be addressed to the relevant vessel or shore-based representative.

Table 1 Marine Coordination Contact Details

Telephone number (daytime operations):	+44 (0)7508421406 / +44 (0)1890 751415
Emergency contact (24/7):	+44 (0)7508421406 / +44 (0)1890 751415
Email:	nng.mc@smchse.com
Address:	NnG Offshore Wind Farm Marine Coordination Centre Gunsgreen Basin Eyemouth TD14 5SD

2 Completed Operations

2.1 Nearshore Boulder/Debris Clearance Operations

Boulder clearance vessel 'Forth Guardsman' and Crew Transfer Vessel 'Wavedancer 2' have demobilised from the project. The remaining Boulder/Debris Clearance operations within the 'Nearshore Area' will be completed in Summer 2021, prior to Export Cable Installation.

2.2 Drilling and Casing Installation

Casing Installation Operations have been successfully completed at the locations listed below, by Saipem Ltd. The co-ordinates of each casing installed are also tabled.

Table 2 Casing Installation – Completed Locations

Turbine ID	Pile Location 1 (P1)		Pile Location 2 (P2)		Pile Location 3 (P3)	
	LONGITUDE (DD.MM.MMM)	LATITUDE (DD.MM.MMM)	LONGITUDE (DD.MM.MMM)	LATITUDE (DD.MM.MMM)	LONGITUDE (DD.MM.MMM)	LATITUDE (DD.MM.MMM)

3 Ongoing Operations

3.1 Boulder/Debris Clearance Operations

Table 3 Details of Boulder/debris Clearance Operations

Contractor:	Helix Robotic Solutions Ltd (Hughes Subsea Services Ltd)
Scope of operation:	Helix Robotic Solutions Ltd have been contracted to clear boulders / debris from all Construction Zones.

	Construction Zones include; <ul style="list-style-type: none"> - Subsea Template (SST) position at each Wind Turbine Generator (WTG) / Offshore Substation (OSS) location - Jack-Up Vessel (JUV) footprint at each WTG location - Inter-Array Cable (IAC) & Inter-connector Cable Routes - Export Cable Route (ECR) KP 5 – KP 37
Area of operation:	Offshore Windfarm (OWF) / Export Cable Route (ECR)
Dates of operation:	January 2020 – January 2021
Vessels supporting operation:	FS Kristiansand World Peridot

3.2 Drilling and Casing Installation

Table 7 Details of Drilling and Casing Installation Operations

Contractor:	Saipem Ltd
Scope of operation:	Saipem Ltd has been contracted by Neart na Gaoithe (NnG) to undertake the Detail Design under an EPCI Scope of Work. During this campaign, Saipem Ltd will drill out x3 rock-sockets and install x3 casings at each of the x54 Wind Turbine Generator (WTG) and x2 Offshore Substation (OSS) locations.
Area of operation:	Offshore Wind Farm (OWF)
Dates of operation:	10/08/20 – March 2021
Vessels supporting operation:	Saipem 7000 Sea Gull

3.3 Geotechnical Site Investigation

Table 12 Details of Geotechnical Site Investigation Operations

Contractor:	Saipem Ltd
Subcontractor:	Gardline Ltd.
Scope of operation:	Gardline Ltd. will conduct a Geotechnical Site Investigation campaign, on behalf of Saipem, from Supply Vessel 'MV Ocean Vantage'. The scope includes x56 boreholes of varying termination depths, ranging from 12.0m – 45.0m below mudline (BML). All operations will be conducted within the Wind Farm Area (See Figure

3.4 Guard Vessels

SFF Services has been appointed by NnGOWL to provide guard vessels during the boulder/debris clearance campaign. Apart from times of extreme weather, there will always be at least two guard vessels on site, to cover the Wind Farm Area and Export Cable Corridor. The guard vessel's primary duty is security of the construction site by informing and warning non-construction vessels of the ongoing activities and associated Safety Zones.

Two (2) of the Three (3) Guard Vessels below are on-site at any given time supporting the operational vessels listed above.

4 Planned Operations

NnGOWL will update this section of the report prior to any additional offshore operations commencing.

5 General Safety Advice

All vessels engaged in the construction activity will exhibit appropriate lights and shapes prescribed by the International Regulations for Preventing Collisions at Sea; relative to their operations. All vessels engaged in the activity will also transmit an Automatic Identification System (AIS) message. Mariners are requested to navigate with caution and keep continued watch on VHF Ch. 16, when navigating the area.

Please be aware that by virtue of their mode of operation and the equipment deployed *S7000*, *Sea Gull*, *FS Kristiansand*, *World Peridot* and *Forth Guardsman* will be Restricted in their Ability to Manoeuvre (RAM) as defined under COLREGs (International Regulations for Preventing Collisions at Sea 1972, Rule 3). Masters of vessels are therefore requested to maintain their vessels and gears at a minimum safe distance from these vessels of 500 metres when it is undertaking its work and showing the appropriate shapes and lights in accordance with COLREGs Rule 18.

Use of Safety Zones within the Neart na Gaoithe Offshore Wind Farm Construction Area is as follows:

- Mandatory "rolling" 500 metres (m) Safety Zones will be established around each wind farm structure (turbines and Offshore Substation Platforms (OSP)) and/or their foundations whilst construction works

are in progress, as indicated by the presence of a construction vessel. Up to ten of these Safety Zones may be active at any given time.

The duty Guard Vessels and Marine Coordination Centre will be responsible for monitoring and policing the Safety Zones; and can be contacted directly for advice. Users are advised to keep clear of construction activities, including Safety Zones.

6 Fisheries Liaison

Fisheries liaison associated with the activity will be co-ordinated by the Company Fisheries Liaison Officer. For any commercial fishery queries please contact: Peter Berney, telephone: +44 (0)7391 402387 or email: NnG.FLO@naturalpower.com

For any other general queries please contact info@nngoffshorewind.com .
