Mariners are advised that during boulder clearance works, a Remotely Operated Vehicle (ROV) deployed from the *Sartor* has disconnected from its umbilical. The ROV is on the seabed within the boundaries of Neart na Gaoithe offshore wind farm, awaiting recovery, at the coordinates below. The recovery will be performed by a separate vessel, to be notified in a subsequent version of this Notice to Mariners once confirmed. A 50-metre exclusion zone is advised around the ROV for safety reasons, until the ROV has been recovered from the seabed. A further Notice to Mariners will be issued once recovery is complete.
