**Mariners are advised that the Saipem 7000 (S7000) has successfully completed recovery of the previously left equipment within the boundaries of the Neart na Gaoithe (NnG) Offshore Wind Farm. The operation was completed on 17th August 2021 and the S7000 has departed site.**

The equipment has been recovered from Wind Turbine Generator (WTG) location NNG-H17, however, a small section remains within the drilled socket. This section protrudes approximately 3.1m above the level of the seabed, at the location specified in Table 6, and is to be cut at a later date.
