Subject:	Neart na Gaoithe Offshore Wind Farm: Commencement of Offshore Substation Installation
NtM number:	177
Revision:	2
Author:	Claire Gilchrist, NnGOWL Offshore Consents Manager (claire.gilchrist@nngoffshorewind.com)

Mariners are advised that Neart na Gaoithe Offshore Wind Farm Limited (NnGOWL) is due to commence installation of the offshore substation jackets and the offshore substation topsides within the Neart Na Gaoithe (NnG) Wind Farm Area. The work is due to begin 12th May 2022, at the earliest.

There will be two offshore substations (OSS) within the NnG Wind Farm area, at the coordinates in Table 1, each requiring one three-legged jacket foundation structure. The offshore substation jackets will be brought to site on and installed by the *Sleipnir* (call sign: 3FER4).

Once the jackets are secured in location, the South OSS topside will be installed by the *Sleipnir*. The North OSS topside is to be installed at a later date and will be notified via a separate NtM closer to the time. The South OSS topside will be brought to site using a barge, *Wagenborg 7*, assisted by two tugs; *Pacific Discovery* (call sign: 9VFL8) and *Multratug 3* (call sign: PCDB).

During the installation of the items, there will be a Crew Transfer Vessel (CTV) on standby in the field to assist with personnel transfer as required, *Seazip 6* (call sign: PBGR) and *Forth Engineer* (call sign: 2HAL3).

Personnel will also be periodically transported to and from the South OSS topside by CTV the *Rix Lion* (call sign: 2HOH3), operating out of Montrose.

Area of Operations

Mariners are advised that the aforementioned vessels will be working at the two offshore substation locations, within the NnG Wind Farm Area, shown in Figure 2 and Table 1.

All vessels are requested to remain at least 500 metres away from all work vessels and static fishing gear is requested to be removed from the exclusion area shown in Figure 2 and Table 2.

Schedule

The offshore substation jacket installation work is due to begin from 12th May 2022, at the earliest. It is anticipated that the installation works will be completed by end-May 2022, weather dependent. This will be followed by installation of the South OSS topside. OSS commissioning is due to begin early June and will continue throughout Summer 2022.

Weather permitting, construction works will be carried out on a continuous basis, 24-hours per day, seven days a week.

For updates on the progress of the works, information will be provided in the Weekly Notice of Operations available on the NnG project website: <https://nngoffshorewind.com/resources/>.

Adverse weather conditions

Upon adverse weather conditions, if the construction vessels are not able to hold on position, they will seek shelter either around the Isle of May or within the Firth of Forth, or return to a Port.

General Safety Advice

Construction activities are ongoing within the boundaries of the Neart na Gaoithe Offshore Wind Farm. Mariners are advised to refer to the NnG Weekly Notice of Operations where up to date information regarding activities on site is broadcast. A copy of this notice and the Weekly Notice of Operations can also be found at <https://nngoffshorewind.com/resources/>

One guard vessel is currently within the wind farm site. The guard vessel will be one of the below, which can be contacted as follows, if required:

Fisheries Liaison

Fisheries liaison associated with the activity will be co-ordinated by Natural Power. For any commercial fishery queries please contact the NnG company Fisheries Liaison Officer (CFLO) Peter Berney, telephone: +44 (0)7391 402387 or email: NnG.FLO@naturalpower.com. An Offshore Fisheries Liaison Officer (OFLO) is present on the S3000 in the wind farm area and can be contacted via VHF Channel 16.

Distribution List

A central list of recipients is maintained by the company Fisheries Liaison Officer; if you are not the appropriate recipient of these notices, or do not wish to receive the notices in the future, please contact us at NnG.FLO@naturalpower.com.
